### **Curtains on a budget**

There is also a budget version available in linen-look with blackout fabric on the backside to block sunlight, allowing the room to become completely dark as it is also a bedroom.  
This is the same size as the entire back facade shown in the model apartments.  
Samples of these curtains are available in apartment 48E on the ground floor street side. The samples are meant for reference and should remain on the project.

Cost:  
€ 550,- incl. blackout fabric, incl. VAT (rails are not included). All curtains are excluding installation.
